Dear hiring manager,

I am excited to apply for the position as a developer. This position would help set me on the right path to achieve my career goals.

The experience gained from working at Genasys Technologies (Pty) Ltd as a test analysis has helped to lay a solid foundation to build upon moving forward. I am sure that the experience I gained so far would help immensely within a development role.

I consider myself a hard worker and a quick learner always willing to go the extra mile. My time spent working in cooperate environments has taught me many valuable skills such as effective communication with clients, meeting deadlines, and working as a team to complete projects.

While working at Genasys Technologies (Pty) Ltd, I gained valuable knowledge on how the company's software solutions functions. Working remotely has sharpened my communication, planning, and programming skills as the distance created between team members due to COVID-19 can only be overcome with effective communication and proper planning; all while ensuring that the team stays client centric.

I am confident the skills I homed in previous positions have prepared me for this opportunity with your company. My expertise in working with other developers and clients makes me a great candidate for this position. I would like to meet and share more about my experience and skills. If you have any questions, please call me at 074 666 8673 or email me at adriaan.h.pienaar@gmail.com.

Thank you for your consideration.

Sincerely
Adriaan Pienaar
